

FRONTEND HOMEPAGE TEST 2018

Thanks for taking the time and interest to complete this test. It serves to guide us on the level of your experience and skill with regards to the technologies that we use.

The task is to create this fully responsive homepage for a football website using the following technologies/guidelines:

- You may use React.js, any preprocessors and normal HTML/CSS.
- Build it using Bootstrap 4 / HTML 5 / CSS3 / JS
- Responsive Design
- Slider and carousels should be working
- Cross browser tested

Setup a new repository in your personal BitBucket account and add user '**piranhadesignedinburgh**' so a member of our team can review the test. If you do not have a bitbucket account you can create one for free or work on the project locally and send us a compressed zip by email to web@pdg.gi

Thanks again and we look forward to seeing your skills.

The logo for Piranha, featuring the word "piranha" in a stylized, rounded, blue font. The letter 'i' has a small dot, and the 'a' at the end is a simple, rounded shape.
